

NEURODIVERSITY INCLUSION PROJECT

Are you aged 16 - 25?

Do you want to join a young person's project to improve inclusion and understanding of autism and ADHD in schools and colleges?

By taking part in this project you can:

- Use your lived experience to improve support services for young people at school and college
- Work with health service leaders to make NHS assessments more accessible
- Help design leaflets and posters
- Help design information for teachers
- Help design information for young people in schools and colleges
- Create films

You will receive vouchers and online badges to acknowledge your time and skills.
